

I'm writing in regards to K-LOVE, Christian radio. This station is so important to the community.

1) K-LOVE is indispensable for information on family-friendly events in the community such as concerts, speakers, etc.

2) If K-LOVE were replaced by any other type of programming, there would be no music that would be safe for children to listen to, no source of encouraging music for the community.

3) I believe that the service provided to the community by K-LOVE is in the public's best interest because there is so little out there that is positive, portrays good family values and morals.

The loss of this station would be nothing short of a tragedy. The messages being sent in mainstream music are appalling, and with all of the evil that is going on in our world today, we desperately need this source of encouragement.

Thank you,

Michelle Dodson
